## Sustainability | Compliance:

BIFMA Level®, Clean Air Gold, can contribute to LEEDS® credits

## Warranty:

12 Years, 3 years for upholstery

[Click here for product brochure](#)

[Click here for product price list](#)

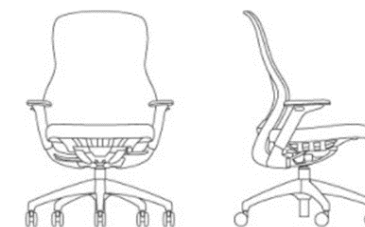

## Description:

Since its introduction in 2009, Generation has redefined seating by replacing the notions of how people “should” sit with the support users' need to work freely. The first chair to promote unrestrained movement, Generation is a true reflection of innovation and thoughtful design.

## Specifications:

- + The Flex Back fuses two innovative elements — the high performance elastomer Flex Back Net and a distinctive figure 8 structure — which together support many different postures and allow for multidimensional movement throughout the workday.
- + The Continuous Lumbar carries the lumbar support in the Flex Back through the design of the arms.

## Dimensions:

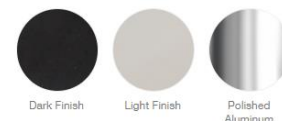

\*with standard cylinder.  
Low (-1.4”) and High (+1.6”) cylinder available.

A modern lounge area featuring two armchairs, one yellow and one grey, positioned in front of a large window. A small round coffee table with a white metal frame sits between them, holding a small orange bowl. The window offers a view of a modern building with a grid of windows. The room is decorated with a patterned wall on the left and potted plants on both sides. A semi-transparent blue banner is overlaid across the middle of the image, containing the text "Lounge | Soft Seating".

# Classics

A modern interior space featuring two armchairs, one yellow and one grey, positioned in front of a large window. A small round coffee table with a white top and metal legs sits between them, holding a small orange bowl. The window offers a view of a modern building with a grid of windows. The room has a patterned wall on the left and a potted plant on the right. A semi-transparent blue banner is overlaid across the middle of the image, containing the word "Classics" in white text.

## Knoll: Maya Lin, stones

[Click here for product brochure](#)

[Click here for product price list](#)

### Description:

Maya Lin's collection of Stones, introduced in 1998 in celebration of Knoll's 60th anniversary, reflects the famed architect's signature subtlety. "At the heart of this furniture collection for Knoll is my love for the land," says Lin. "It goes back to a childhood fascination we all have—that moment when you discover that the earth is round...and you walk around trying to see that curve." Stones are available in two sizes in a range of colors. Used as either stools or side tables, the stones are a colorful addition to the office, playroom or patio.

### Specifications:

- + Seat pad available in a range of KnollTextiles and Spinneybeck® leathers
- + Approved for outdoor use without seat pad
- + Stones can be specified with weight for added stability. There is no option for a sand kit if the Stones are ordered without weight
- + Security Kit available to anchor stones to the ground for permanent applications

# Knoll: Harry Bertoia, molded shell chair

[Click here for product brochure](#)

[Click here for product price list](#)

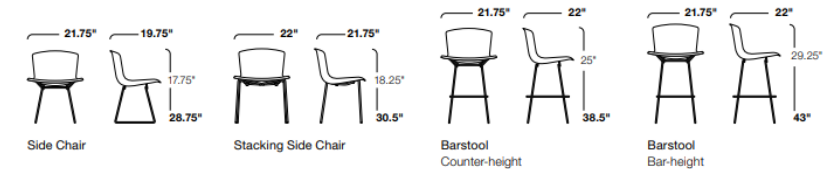

### Description:

The Bertoia Molded Shell Side Chair is a reintroduction of a design originally debuted 1960. Merging the sublime grace of the wire-form side chair with a touch of color and natural flex, the reinvigorated classic is ready to add colorful accents to any room. Mix and match the chairs or keep a singular color palette, the Bertoia Molded Shell Side Chair offers an iconic design with a playful tone.

### Specifications:

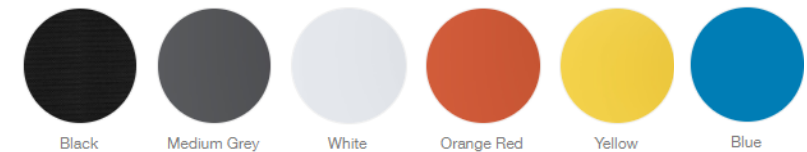

- + Seat is glass fiber reinforced nylon
- + Base is constructed of welded steel rods with polished chrome finish or white or black powder coat
- + Plastic glides included on sled base to protect floors
- + Knoll logo stamped into the back of the base
- + Seat is glass fiber reinforced nylon for indoor shell (White, Orange Red, Yellow, and Blue)
- + Seat is polypropylene for outdoor shell (Medium Grey and Black)

# Knoll: Eero Saarinen, womb

[Click here for product brochure](#)

[Click here for product price list](#)

### Description:

Eero Saarinen designed the groundbreaking Womb Chair at Florence Knoll’s request for “a chair that was like a basket full of pillows... something I could really curl up in.” Eero Saarinen was eager to continue exploring the possibilities of a chair that achieved comfort through the shape of its shell, not the depth of its cushioning. The fiberglass design supports multiple sitting postures as well as a sense of enclosure. Designed in 1948, it remains one of the most iconic symbols of mid-century modern design.

### Specifications:

- + Available in 3 sizes, including a child’s size
- + Ottoman and settee are also available
- + Seat shell is foam-covered molded fiberglass
- + Steel legs are seamless tubular steel

# Knoll: Warren Platner, tables

[Click here for product brochure](#)

[Click here for product price list](#)

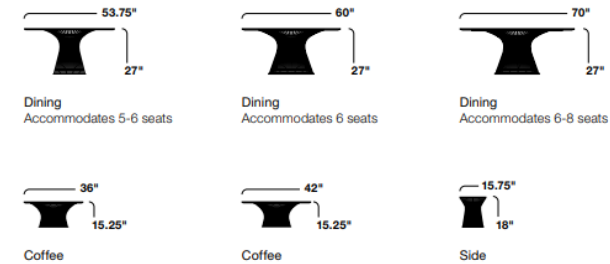

### Description:

In 1966, the Platner Collection captured the “decorative, gentle, graceful” shapes that were beginning to infiltrate the modern vocabulary. The iconic pieces are created by welding hundreds of curved steel rods to circular frames, simultaneously serving as structure and ornament.

### Specifications:

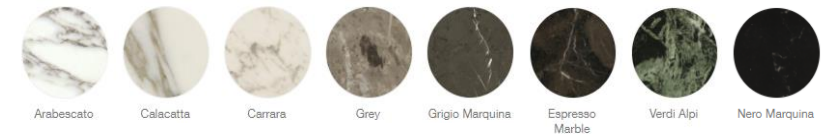

- + Round top sits on base of vertical steel wire rods welded to circular horizontal and edge-framing rods
- + Clear plastic extrusion ring on bottom of the base for a smooth bottom surface

[Click here for product brochure](#)

[Click here for product price list](#)

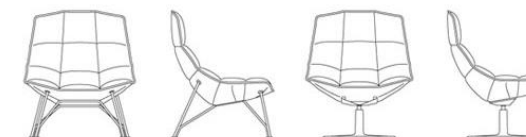

### Description:

The Jehs+Laub Collection for KnollStudio, inspired by the structure and geometry of earlier Knoll designs by Mies van der Rohe, Florence Knoll and Harry Bertoina, is the latest in a long and distinguished line of Knoll lounge furniture. The sweeping form of the Lounge Chair features a streamlined profile and a composed, inviting interior inspired by traditional quilting.

### Specifications:

- + Polyurethane foam with polyester-fiber backing used for upholstery
- + Hidden seam tufting eliminates the need for traditional pulls or buttons
- + Shell is molded and reinforced urethane
- + Back of shell can be articulated, allowing the top section to be flexible
- + Available with wire base in polished chrome or textured black paint or pedestal base in polished aluminum or textured black paint
- + Pedestal base has optional return to center mechanism which allows for 360-degree swivel movement and returns to a center position when not engaged

### Dimensions:

	w	d	h	seat h

# Knoll: Ludwig Mies van der Rohe, barcelona

[Click here for product brochure](#)

[Click here for product price list](#)

### Description:

One of the most recognized objects of the last century, and an icon of the modern movement, the Barcelona Chair's simple elegance and graceful profile epitomize Mies van der Rohe's most famous maxim—"less is more." From the hand-buffed stainless or chrome frame to the individual leather squares carefully welted together, each Barcelona piece is a tribute to the marriage of modern design and exceptional craftsmanship.

### Specifications:

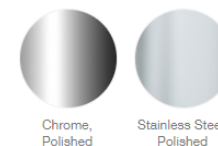

- + Cushions are available in standard or relaxed styles
- + Upholstered with 40 individual panels. Individual panels are cut, hand-welted, and hand-tufted with leather buttons produced from a single cowhide
- + Upholstery straps are cowhide belting leather. Sides are dyed to match specified upholstery color. 17 straps are used for cushion support
- + Polished chrome, hand-ground and hand-buffed to a mirror finish. Upholstery straps attached with aluminum rivets
- + Premium grade 304 bar stock stainless steel. Frame is shaped, welded and hand-buffed to a mirror finish. Upholstery straps attached with solid stainless steel screws

### Dimensions:

# Ergonomic Accessories

## Humanscale: M2.1, monitor arm

[Click here for product brochure](#)

[Click here for product price list](#)

### Description:

In today's fast-paced, agile workspace, there's no time for discomfort. Humanscale's next generation monitor arm line instantly personalizes any workstation for improved comfort, health and productivity. Designed for unprecedented adaptability, our monitor arms focus on ergonomics and the use of technology, while featuring ultra-sleek aesthetics.

### Specifications:

- Supports most monitors in use today (up to 20 pounds)
- Interchangeable mounting options attach to a variety of work surfaces
- Integrated cable management hides cables within the arm
- Removable 180° stop protects walls and panels
- Optional Notebook Holder accommodates laptops 9" – 14" in length
- Optional 12" links provide greater adjustability and flexibility

### Dimensions:

- Arm reach: 20"
- Height adjustment range: 10"
- Weight: 5.7 pounds

### Finishes:

Silver with Gray Trim

Polished Aluminum with White Trim

Black with Black Trim

### Sustainability | Compliance:

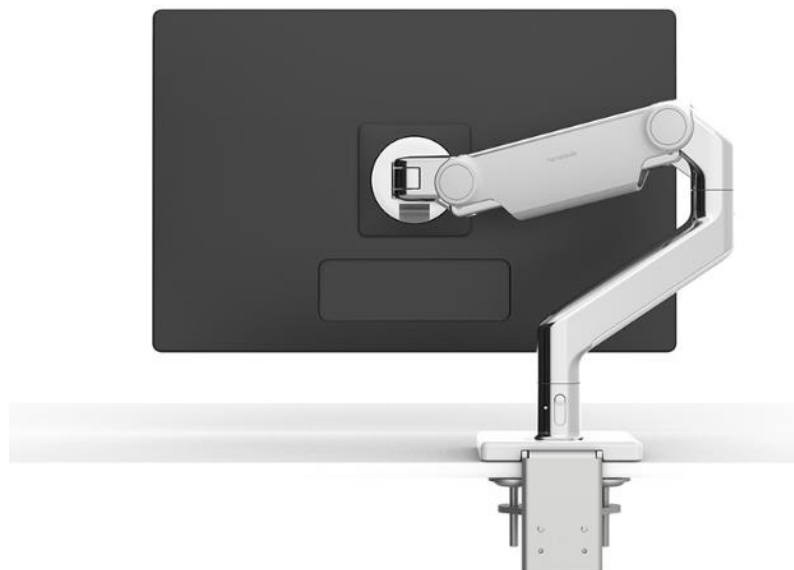

Greenguard, may contribute to LEED credits

### Warranty:

15 Years, 24/7

## Humanscale: M8.1, monitor arm

## Humanscale: M/Flex, monitor arm

[Click here for product brochure](#)

[Click here for product price list](#)

### Description:

The M/Flex multi-monitor arm system allows the user to simply swap attachments to suit their changing technology needs while retaining a sleek, minimal aesthetic. Manufactured primarily from recycled aluminum, M/Flex is as recyclable as it is beautiful

### Specifications:

- Scalable solution accommodates future additions of up to 6 monitors
- Compatible with Humanscale's M2.1, M8.1 and M10 monitor arms
- Reduces future installation costs by allowing for simple reconfigurations
- Available with accessories such as Notebook Holders, Crossbars, Thin Client Holders, UFEAs, Colored VESA Covers and Sliders
- Patent-pending Smart Stop allows the user to customize the rotation of the arm, preventing overhang and protecting surrounding equipment
- Patent-pending Quick Release Joints instantly snap together for a secure and robust fit, simplifying installation
- Compatible with M/Connect, M/Connect 2 and M/Power, the first-ever integrated monitor arm bases and docking stations of their kind
- Supports up to 100 lbs.

### Dimensions:

- Arm reach: up to 28"
- Height adjustment range: up to 10" dynamic & 30" static

### Finishes:

Silver with Gray Trim

Polished Aluminum with White Trim

Black with Black Trim

### Sustainability | Compliance:

Greenguard, may contribute to LEED credits

## Humanscale: 6G, keyboard tray

### Sustainability | Compliance:

BIFMA Level®

### Warranty:

15 Years

[Click here for product brochure](#)

[Click here for product price list](#)

### Description:

In many ways, a keyboard support is the heart of an ergonomic workstation. As reach and vision drive posture, our keyboard tray allows the user to sit in a healthy, neutral posture through bringing the keyboard and mouse to the user in an ergonomic position.

### Specifications:

- Dial-a-tilt positioning that allows you to type at the angle most comfortable for you
- Ultra-thin profile to provide maximum knee clearance
- Superior design to provide maximum strength and stability yet extremely lightweight
- Raised tilt mechanism to protect the keyboard from collisions with the edge of the desk

### Keyboard Mechanism:

- Tilt adjustment range: 0 to -15 degree
- Made primarily of powder-coated steel

### Keyboard Platform:

- Wide range of keyboard options
- Made of 1/4" phenolic resin
- Durable and slim profile
- Available with Technogel or foam palm supports

# Humanscale: CPU200, CPU holder

[Click here for product brochure](#)

[Click here for product price list](#)

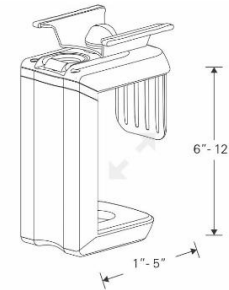

### Description:

AN IDEAL ERGONOMIC WORKSTATION is built with tools that work together to improve the health and comfort of computer users. While products such as task chairs and monitor arms are essential, additional components such as thin clients and CPU holders can further improve workstation ergonomics. Designed to attach under the work surface, our CPU holders eliminate worksurface cable clutter while keeping the device safe and off the floor.

### Specifications:

- Built to accommodate smaller CPU towers
- Fits CPUs 1" - 5" in width and 6" - 12" in height
- Accommodates CPUs up to 15 lbs.
- Under-desk track mount with 360-degree swivel capability
- Made with 48% recycled and 99% recyclable content.

## Humanscale: M/Connect 2, dock

[Click here for product brochure](#)

[Click here for product price list](#)

### Description:

M/CONNECT 2 is a next-generation USB docking station that keeps all your devices connected through a single hub of power and data. With a patented split dock design, M/Connect 2 provides multiple connection options beneath the desk while keeping all essential ports above the work surface and conveniently within reach.

### Specifications:

- Universal USB docking station with USB-C, USB-A and Thunderbolt connectivity
- Backwards compatible to USB-A
- 100W power delivery
- Supports 4K video resolution for up to 2 monitors
- Features a total of 11 ports for power and data
- Features two charging ports dedicated exclusively to delivering power, alleviating potential security risks
- Various mounting options available for easy application to any worksurface
- Kensington Security Lock Slot available for both the hub and dock for additional security and theft protection

### Desktop Hub

- 2 USB-A data ports, 1 USB-C charging port, 1 USB-A charging port and 1 3.5 mm Audio/microphone

### Underdesk Dock

- 3 USB-A data ports (1, high charging port), 2 Display Ports and 1 Ethernet Jack
